

mPower Keys
to Success:

- Experienced staff
- Collaborative approach
- Detailed status reporting
- Reliable methodology
- Scalable solutions

One size does not fit all.

The challenges your business faces are as unique as your business itself. **mPower** can help identify your most pressing requirements and develop customized solutions for each.

Technological Expertise

Solutions to today's complex business challenges oftentimes require a multi-disciplinary approach spanning multiple technologies. From Web-based solutions to data management, cloud computing to mobile computing, **mPower's** client-specific solutions are based on the latest concepts and methodologies.

Flexible Development Models

mPower employs industry best practices to deliver impactful and cost-efficient solutions on both an onsite and offsite basis. We are a leading provider of offshore development resources in India, with a state-of-the-art, ISO 9001 certified facility.

Project Management

mPower is uniquely qualified to provide customized solutions to even your most complex business challenges. Each of our client-specific solutions is backed by an extensive network of resources and an unparalleled commitment to quality.

Senior Management Ownership

mPower takes a highly collaborative approach to every technology development project. This methodology calls for full commitment and ownership at the senior management level. The results speak for themselves.
